

# Introducing EnviroLife<sup>®</sup>

## Visstun's Sustainability Partner

**SUSTANA FIBER ENVIROLIFE<sup>®</sup>**  
 is made with 100% Post-Consumer Recycled Fiber.

Visstun Cups Sidewall Contains  
 An Industry Leading

**35%** ENVIROLIFE<sup>®</sup>  
 Post-Consumer  
 Recycled  
 Fiber

### Compliant with FDA Standards

for use in direct food contact at  
 100% inclusion without the need  
 of a barrier or coating with  
**zero fluorescence.**

Every year, Sustana Fiber  
 recycles enough paper to:

Reduce landfill space  
 by over 1 million  
 cubic yards

Reduce landfill space by over 1 million cubic yards

Sustana Fiber processes  
 2.2 million pounds of  
 recycled materials every day.

2.2M

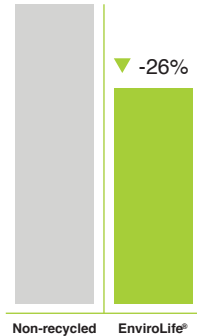

Saving over 4M trees

4M

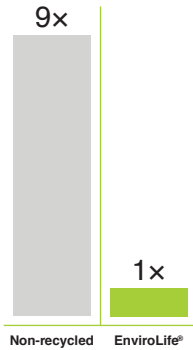

**-26%**

Climate change

The impact of EnviroLife<sup>®</sup> on climate  
 change is 26% lower than non-recycled  
 pulp, due in large to the fact that it  
 requires less fuel to be combusted.

**9X**  
 less  
 water

Visstun<sup>®</sup> closes the loop with Sustana by returning our paper  
 cup processed waste to be recycled.

**Closing  
 the Loop**

Creating a  
 closed-loop  
 circular economy

### Best in class

Compared to generic non-recycled pulp in North America,  
 our recycled fibers have a lower environmental impact.

USES LESS FOSSIL FUELS  
 AT PRODUCTION STAGE

DOES NOT REQUIRE EXTRACTION  
 OF TREES

### Sustainability

Paper packaging and products  
 made with recycled fiber are the  
 environmentally smart choice.

Paper products,  
 including sorted  
 office papers, cups,  
 and cartons, can be  
 recycled up to 7 times.
